JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

shall be punished by a fine of not more than \$500, or by imprisonment for not more than 90 days, or by both such fine and imprisonment.

SEC. 15. Ordinance No. 495-A and all ordinances or parts of ordinances in conflict with this ordinance are hereby repealed.

SEC. 16. This ordinance is hereby declared to be urgent and necessary for the preservation of the public health and safety and to more fully protect and promote the public welfare, and shall take effect immediately upon its passage. [Ordinance adopted Apr. 7, 1911.]

JACKSONVILLE, FLA.

MILK—PRODUCTION, CARE, AND SALE.

SEC. 1. Every person, firm, or corporation desiring to sell or deliver milk or cream in the city of Jacksonville, shall make application annually to the city recorder for a milk license, paying therefor the sum of \$3, and the license therefor shall be issued at the time and in the manner as now provided by ordinance. Such application shall be made on a printed form prescribed by the city board of health, and the applicant, if an individual, shall state his or her full name and residence, and if a firm or corporation, shall state therein the full name and residence of each of its officers, place at which it is proposed to carry on the business, the number of wagons or other vehicles to be used in said business, and such other data as the city board of health shall require. The city recorder, upon receipt of such application, shall hand the same to the city health officer, who shall investigate, or have investigated, the place of business described in such application and the wagons and other vehicles, if any, intended to be used by such applicant. If such places of business, and such wagons or vehicles are found, upon such investigation, to be in a sanitary condition and fit for the use and purpose to which they are intended to be put, the city health officer shall, within 48 hours, report said applicant favorably to the city recorder, and the recorder shall issue a license to carry on, engage in, and conduct the business of vendors of milk in Jacksonville, at the place designated in such application only. All licenses granted pursuant to this ordinance may, at any time, be revoked by the city board of health, for the persistent, repeated or willful violation of any law or ordinance, or of any regulation of the board of health governing the sale of milk in the city: Provided, however, that no such license shall, at any time, be revoked by the city board of health, unless it shall have first given the holder of the same not less than 10 days notice in writing of its intention to revoke such license, and an opportunity to be heard why such should not be done. This proviso shall not be interpreted to apply to cases where the sale of milk or cream may be temporarily prohibited by the city health officer because of disease in the families where the milk is produced or handled, temporary unsanitary conditions or similar cases. Such licenses shall not be transferable and no license issued hereunder shall entitle or authorize the holder thereof to carry on, engage in, or conduct the business of vendor of milk in any place or places other than that described or set out in such license. The location of such place of business can be changed only on approval of the city board of health.

SEC. 2. The license to sell milk hereinbefore referred to shall be posted conspicuously in the applicant's place of business. Each wagon or other vehicle used by any vendor of milk shall have his name or the name of the firm or dairy printed in letters of readable size on each outer side, together with the license number, the latter to be in figures not less than 3 inches in height.

SEC. 3. The city board of health shall have power to adopt such reasonable regulation as it may deem proper and necessary to insure all milk and cream intended for consumption in the city being produced, stored and delivered under conditions rendering them suitable for consumption as human food, such regulations to apply to dairies or creameries from which milk and cream so intended for consumption in the city are produced, whether said creameries or dairies are situated within or outside the limits of the city. Copies of such regulations and ordinances relating to the sale of milk shall be printed and kept for free distribution to the public. The city board of health shall have power to prohibit the sale of milk or cream produced, stored, or delivered contrary to such regulations, and to the end that such regulations may be enforced the city board of health shall through its officers or agents, at least once each month, make an inspection of all dairy farms, stables or other places where milk or cream is produced, stored, or shipped for consumption in the city, and shall have the right at any time to inspect or have inspected milk offered for sale or intended for sale. Where full opportunity to make inspection is denied, or where upon inspection it is found that milk or cream is not produced, stored, or delivered in accordance with such regulations, the city board of health may prohibit the sale thereof in the city until such time as in its opinion the reason for such exclusion shall have ceased.

SEC. 4. The system of inspection employed by the city board of health shall be in accordance with the score card of the dairy division of the Bureau of Animal Industry of the United States Department of Agriculture.

SEC. 5. It shall be unlawful for any person or persons to adulterate milk offered for sale or sold within the limits of the city by mixing therewith water or any other substance, or to sell any milk from which the cream or any part thereof has been removed, except it be sold and labeled as skimmed; and no person shall, within the limits of the city, sell or offer for sale any milk of a diseased cow or of a cow two weeks before or five days after calving.

SEC. 6. All milk bottles or other containers shall be washed and thoroughly cleansed before being returned to any vendor of milk, and no bottles or other containers shall be filled with milk by any dealer or vendor of milk until they have been thoroughly cleansed and sterilized.

SEC. 7. No person selling or distributing milk or cream shall remove any empty milk bottle or container from any dwelling where contagious disease exists, except under such conditions as authorized by the city board of health.

SEC. 8. No vendor of milk or cream within the corporate limits of the city shall sell or deliver any milk or cream that does not come up to such standard of bacterial content as may be determined upon by the city board of health, but such standard shall not be higher than that prescribed by the dairy division of the United States Department of Agriculture.

SEC. 9. Every person engaged in the production, storage, or distribution of milk, immediately upon the occurrence of any case or cases of infectious or contagious disease, either in himself or family, or amongst his employees, or within the buildings or premises where milk is stored, sold, or distributed for use in the city, shall notify the city board of health and, at the same time, suspend the sale and distribution of milk until authorized to resume the same by the city health officer.

SEC. 10. No person shall offer, expose, or hold for sale, or deliver any milk or cream, within the corporate limits of the city, which registers a temperature above 50° Fahrenheit.

SEC. 11. No person shall distribute, sell, or have in his possession with intent to distribute or sell, any milk which contains less than 12 per cent of milk solids, or more than 88 per cent of watery fluids, or less than 3 per cent of milk fats, provided, however, that it shall not be unlawful for any person to distribute, sell, or have in his possession with intent to distribute or sell, in a container having a capacity of not more than 12 fluid ounces, milk especially prepared for infant or invalid feeding by adding thereto pure water, milk sugar, cereal starches, or other substances which shall not differ in purity, quality, or strength from the standard fixed by this ordinance, provided, that such milk shall be labeled "modified milk."

SEC. 12. It shall be unlawful for any vendor or distributor of milk or cream to transfer from one container to another any milk or cream for retail consumption at any point outside of the dairy or milk room of said vendor, where the filling of bottles or other containers may be done in compliance with the provisions of this ordinance.

SEC. 13. It shall be the duty of the city health officer to cause a complete record to be kept of all milk or cream, inspected or condemned, with reasons for condemnation and record of tests, showing the name of the inspector making the report. Such records shall be open for inspection by any owner or manager of any dairy or creamery or of any vendor of milk or cream, also to the general public during reasonable office hours.

SEC. 14. It shall be the duty of the budget committee each year to provide the sum of \$3,200 to be used by the city board of health to defray the expenses incident to the bacteriological examinations and dairy inspection necessary to the enforcement of this ordinance.

SEC. 15. There shall be appropriated \$500 to be expended by the city board of health for the furnishing and equipment of a chemical and bacteriological laboratory for the carrying out of the tests and examinations necessary to the proper enforcement of this ordinance.

SEC. 16. Any person, who shall violate any provision of this ordinance, shall, on conviction in the municipal court, for each offense, be punished by a fine of not less than \$5 nor more than \$100, or by imprisonment of not less than 10 days nor more than 60 days. Upon a second conviction in the municipal court during any license year, the city board of health may, at its discretion, revoke the license of such person, firm, or corporation for the remainder of the license year.

SEC. 17. In all cases where the city health officer is authorized to act under this ordinance his acts shall be final until changed, modified, or reversed by the city board of health.

SEC. 18. This ordinance shall go into effect and become operative on the 1st day of October, 1910. [Ordinance adopted May 17, 1910.]
